

CLOSE ENOUGH

©2008 Spencer Rogers BMI / Bryan Davis ASCAP

a near miss hints at the business
a clue to letcha know
how close you almost, to show
to warn with a shot
cannot ignore
get closer to the warm
feel the sliding
so tempting yeah
nearly colliding
a near miss hints at the business
to warn with a shot

are we close enough?
can we get close enough?
are we close enough to know?
to warn with a shot
are we close enough?
can we get close enough?
close enough to know
to warn with a shot

precious chances bless
the lesson is to let it go
to show you know she only
seems to be moving slowly
here you get to be lucky
you get to do your thing
the way you use and do it
smooth loose no need to prove it
here you get to be lucky
to warn with a shot

are we close enough?
can we get close enough?
are we close enough to know?
to warn with a shot
are we close enough?
can we get close enough?
close enough to know
to warn with a shot

if you just give in and cross over
scribble on a page
your name and number
you may end up under the covers
you may not get this chance again
if you just give in and cross over
to warn with a shot

are we close enough?
can we get close enough?
are we close enough to know?

are we close enough?

can we get close enough?
close enough to know

are we are we close enough?
are we are we close enough?
are we are we close enough?
are we are we close enough?

close enough
close enough
close enough
close enough to know
close enough
close enough
close enough
close enough to know
