yeah, life is a trip
have a time on the way
you can evil yourself to death
with all you've been thinking
fightin' for your right
livin' in the night
you're a live one
me I'm just tryin' to find a way through today

**and I wanna feel high
all of the time
I wanna feel high
all of the time**

yeah, baby come on
no it ain't easy for nobody no way
to see anything
in a world this crazy
come back to reason
treat every second as its own season
wrap up in the blanket or strip naked in the changes baby

**and I wanna feel high
all of the time
I wanna feel high
all of the time**

wanna be higher
set in on fire
wanna be higher
set in on fire
wanna be higher
set in on fire
wanna be higher
set in on fire

I wanna feel high
Not just get by
suffer and die
I wanna feel high
Not just get by
suffer and die
I wanna feel high
I wanna feel high
All of the time
Not just get by

I wanna feel high
I wanna feel high
All of the time
Suffer and die
I wanna feel high
I wanna feel high
I wanna feel high
I wanna feel high

All of the time
