

## THE PRESENT TIME

©2008 Spencer Rogers BMI / Bryan Davis ASCAP

let your long legs shine out in the light  
sweat glistenin'  
sniff the scent you've been missin'  
shut your eyes like to listen  
and dream of lips and kissin'  
a split second decisions  
grip your hips  
lick your lips and trip in double vision

**in the present time**  
**the present time tonight**  
**this is the present time**  
**the present time tonight**

put your hands up to push back the sky  
feet planted you and I  
have been granted this time  
to understand it  
to stomp atop the planet  
to romp each other damn it  
let go of tomorrow  
for now is ours to borrow

**in the present time**  
**the present time tonight**  
**this is the present time**  
**the present time tonight**

put your hands up

**in the present time**  
**the present time tonight**  
**everything changes**  
**in the present time**

everything changes

welcome back  
to the present time  
glad you're back  
here in the present time

here it is  
here it is  
right now
